Dave's Blog

Hi All,

As we head for a hopefully longer summer I just wanted to bring you up to date with some of the events that have been happening at BL.

As a company who have been running for over thirty years it is not surprising that some of our members of staff have been with us quite a long time. Not long ago awards were presented to the following members of staff.

Louise Brittain our Office Manager has recently clocked up 25 years service (she tells me she was 10 when she started). Sylvia Grattan our Service Office Administrator has been with us for 10 years now.

Jim Brittain our Contracts manager and Johnny Wallace our Installation Supervisor both reached the 20 year mark this year.

Hearty Congratulations must go out to these members of staff. Well done and thank you for your dedicated service.

Dave Sewell

**Sylvia Grattan & Louise Brittain
10 Years & 25 Years**

**Johnny Wallace & Jim Brittain
20 Years Service**

Some of you will know that our Engineering Director David Bailie was taken suddenly ill last summer and was grateful for the services of Cardiac Ward 20 at the Ulster Hospital.

Thanks to their care and attention David has made a full recovery and is back to his energetic enthusiastic self.

As a small gesture of thanks David handed over a cheque for £500 to the Cardiac Ward to help maintain the excellent services they provide.

Stroke Rehabilitation Unit Lagan Valley Hospital

In what was an eventful year our Service Office Administrator Sylvia's Husband was taken ill and spent time in the Stroke Unit at Lagan Valley Hospital. He is also now doing very well and making a good recovery. BL handed over a cheque for £500 to the Unit in recognition of their dedicated and professional service.

I have said that BL made these donations and that is true but it was from the fund that we established when we decided to stop the traditional Christmas Gifts a few years ago so you can all take some credit.
